

Who's ready to be a 'Marvellous Material Maker?'

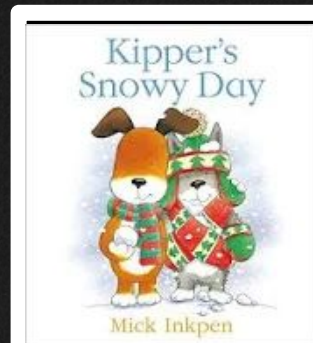

This term we're diving into the wonderful world of materials and discovering how they **change, mix, bend, stretch, squash, melt and freeze.**

Let's find out about Sorting & identifying materials

**Bend it, Squash it, Squeeze it!**

We will be finding out how materials can change shape.

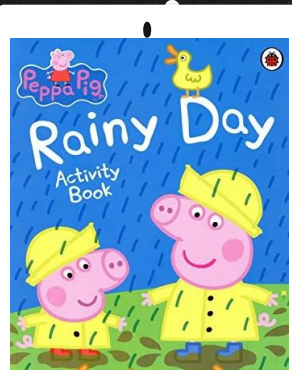

This is a cosy winter adventure that helps us explore **snow and ice**, how they feel and how they melt. We will investigate ice paintings and melting chocolate.

# SCIENCE AND TECHNOLOGY

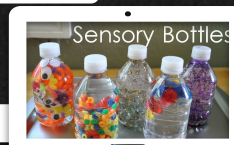

## 'Marvellous Materials'

### Nursery and Reception

Waterproof or not?

**Outdoor Investigations** - Children will explore natural materials such as mud, leaves, sticks, stones and snow

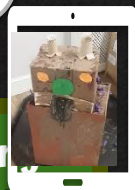

How..?

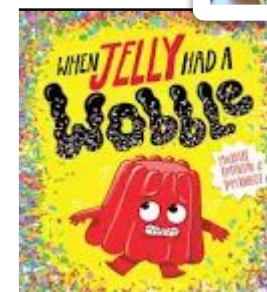

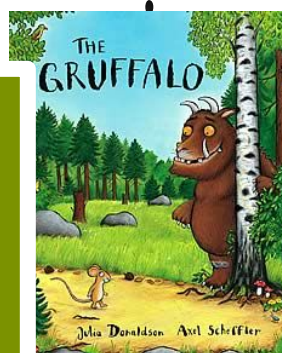

Why..?

**Wacky Workshop**  
Come and see what we have found out.  
Date to be confirmed.

**Junk Modelling**  
There will be lots of opportunities for junk modelling following the children's ideas.

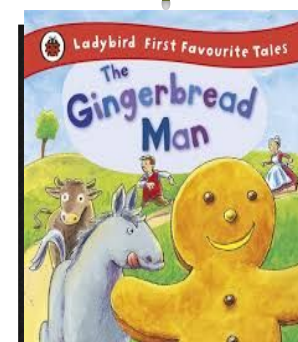

**Muddy Week**  
Time to get messy exploring with mud.  
Who wants a mud pie?

Where's it gone?

**Dissolve it!**  
In a bright and colourful way we will explore how materials **dissolve, mix,** and **transform** right before our eyes.

**Mix it!** Children will have lots of fun exploring dry and wet ingredients and observing the changes when mixed.
